

From the Office of Joaquin Dulitzky

Oct 20th 2013

To Whom it may concern,

I am writing this unsolicited letter, because I was delighted to work with Mr. Claudio Valero and Florida Pool Patio Corp. I found them randomly in a magazine and from my first interview with Claudio, the owner and an engineer, I could tell his level of sophistication is way above anything else I had found in Miami. He delivered on every promise, he went out of his way, he was a professional along the way, working with other great professionals. He took it personally to give me and my family a great product and service (for pool and patio work he did at my home in Coconut Grove). I want to highly recommend him and will be glad to serve as a reference if you have questions.

Sincerely yours,
